

Intent

To develop, regardless of ability or background, children with a greater understanding and knowledge of the world and their place in it. Children develop knowledge, vocabulary and skills that are transferable to/or contextualised within other curriculum areas.

Specific Knowledge

Key Vocabulary

Skara Brae— A Stone Age settlement on an island off of Scotland.

Farming — A way of growing plants and raising different animals.

Village— A small number of houses close together.

Settlement—A place where a group of people have set up a village, town or city.

Crops— Plants that have grown.

Physical Feature—A natural feature such as water, mountains, deserts and lakes.

Human Feature— Something that has been made or built by a person.

Enabling Knowledge

- There are surviving remains of Stone Age and Iron Age settlements across the UK.
- Skara Brae is a Neolithic village found within the Orkney Islands, Scotland. It is the best preserved prehistoric village in Western Europe.
- Types of settlement and land use such as hillforts.
- Focus on physical and human features, compare Skara Brae with present day UK villages.
- Using evidence from Skara Brae, explore the way they used to farm and grow crops.
- Compare farming in the past to how we farm now.

How do previous questions/topics link to the current topic?

I live in England, which is in the United Kingdom in the continent of Europe.

I can locate all seven continents and five oceans on a map.

All the continents are still moving due to tectonic plates.
